Project Description						Type of Services Provided [Outlined]		
 COPESTAT (Copernicus Countries Statistical Services) plans, streamlines, and selective applies a statistical database to Copernicus-Networks, capable to providing and marketing statistical information (east-west, west-east) via information technology infrastructure, electronic media, telematics. and GIS. It delivered statistical information for selected themes (subject areas) selected in co-operation with the partners and their NISSs. COPESTAT is geared to be a commercial business delivering on-line or upon request statistical information for PHARE, CIS and other EU countries. Main deliverables are A Strategic Business Plan: Year 2000, A database and services plan aimed at delivering world-wide Copernicus and CIS statistical services on a profit basis. Items of these major deliverables are: a Compendium; a Usage and Applications Document; a Components Framework; a Workshop on Operability; Economic feasibility and Pilot Application Statistics Delivery and Mapping  COPESTAT has been the first of its nature and has supported financially by the European Commission, DG-III. COPESTAT delivers statistical information for selected themes and subject areas. Themes have been selected based on previously applied research funded by other EC projects. COPESTAT seeks a commercial business structure, delivering on-line, and upon request, statistical information for PHARE countries, the CIS and other EU countries via a Network.						<u>Services-Deliverables</u> - A Strategic Business Plan: Year 2000, - A database and services plan - Inventory of information - Database (design-development) - GIS system (design-development) - Compendium; - Usage and Applications Document; a Components Framework; - Workshop on Operability; - Economic feasibility and Pilot Application - Statistics Delivery and Mapping. <u>Achievements-Innovation</u> - Exposed and distributed environmental information to society, consisting of data collected - Structured and released a major GIS system in cooperation with ESRI-Germany <u>Key Words:</u> COPESTAT, Czech Republic, European Commission, Eurostat, GIS, Hungary, Information Technology, Internet, Poland, Poland, Russian Federation, Slovak Republic, Statistics, WWW.. <u>For Information:</u> Mrs Despina KALLIDROMITOU ☎ +30-210-6898622 ☎ +30-210-6842420 ✉ central@epsilon.gr 🌐 www.epsilon.gr
