EPSILON is a Sciences, Technology, Engineering and Consulting International Group engaged in: Environment & Water, Natural Resources, Ecosystems, Agriculture, GeoInformatics, Energy, Disasters, Economics & Management.

EPSILON was first established in 1985 in Boston, Massachusetts, USA, and then in 1990 in Europe. Today it operates world-wide as a Group of legally independent companies with key Offices in Malta, Greece, Bulgaria, Cyprus, Germany, Italy. It has allied offices in most European countries and cooperates with foremost world technology organizations.

EPSILON delivers engineering & consulting services, outsourcing, R&D/RTD/R&I commodities, training, and state-of-technology products as geospatial database infrastructures, and up-to-the-minute steering & environment technologies for all CL6 Topics of WP9

On CL6 our focus includes promoting sustainable agriculture and forestry practices, advancing circular bioeconomy solutions, and developing strategies for biodiversity conservation and ecosystem restoration. We aim to enhance food and nutrition security through innovative food systems and support the transition to a low-carbon, resource-efficient economy. Additionally, we are committed to fostering resilient rural, coastal, and urban communities by integrating environmental observations and digital solutions in line with the European Green Deal objectives.
