Detailed description of project						Type of services provided		
 <p>Industrial Area development in an area of 97ha, surrounded by the communities of Asgouros, Kandili, Pastida, Kalithies and Treri, northern of the city of Rhodes. The development is expected to provide with an organised and well-equipped area for the establishment of industries and secure their proper operation. In addition, it aims to reduce annoyance to the natural and social environment. The main purposes of the new development are:</p> <ul style="list-style-type: none"> • Relocation of existing industries in a new area. • Incentives for establishment of new industries. • Provision of favorable conditions for industry operation (low production cost). • Protection of the natural environment. • Industries supporting framework. <p>Environmental impacts – Mitigation measures</p> <ul style="list-style-type: none"> • Development of the secondary sector, in order to reduce the gap between the primary and tertiary sector. • Removal of pollution sources from the city of Rhodes. • Minimization of adverse impacts caused by isolated industries. • Provision of standards of proper operation and improvement potential for those industries that will not be rrelocated. • Development of the primary sector, leading to income growth, limitation of imports and upgrading of trade in the prefecture. • Attraction of new investors in the prefecture and economic development. • Use of the broad area of Rhodes for other urban uses. 						<ul style="list-style-type: none"> • Environmental Impact Assessment
