Description of the project						Services provided		
<p>The project involved the design, development, deployment, and maintenance of an interactive web-based educational platform for the Gharb Local Council, Gozo, under the Interreg V-A Italia-Malta AMPPA project. The goal was to enhance public awareness on marine biodiversity, sustainability, and environmental conservation through gamified digital tools.</p> <p>The application features five interactive games, each aligned with educational objectives focused on marine ecosystems:</p> <ul style="list-style-type: none"> • Memory Game (Aquarium) – Match marine organisms and learn their taxonomic groups. • Labyrinth (Rock) – Navigate marine species to their correct habitats. • Responsible Fisherman (Bridge) – Match fishing gear with appropriate species. • Cleaning the Beach – Clean marine litter and distinguish waste types. • Quiz Games (School) – Multiple-choice and true/false questions on biodiversity and marine protection. <p>The platform was delivered in full compliance with the contract requirements and hosted online. It was accompanied by a detailed user manual and final report, and followed structured acceptance, invoicing, and guarantee processes in line with EU programme guidelines.</p>						<p>Services provided</p> <ul style="list-style-type: none"> • Project Management and Coordination • UX/UI Design and Game Storyboarding • Custom Web Application Development (HTML5/JS, CMS-backed) • Game Logic Programming for five modules • Deployment and Hosting Support • Training and Documentation (User Manual, Final Report) • Maintenance and Support Services
